

livonia 16th district court

16th District Court

City of Livonia

Livonia, Michigan

Due in 2010

38,944 sf

\$10,000,000

The 16th District Court, located in the Civic Center complex of the City of Livonia, will complement the existing municipal buildings while improving the functionality of the court for all users. The court will have two full courtrooms, one magistrate hearing room, court clerk support space and an active probation department. Courtroom technology will be state of the art, improving security and efficiency of court operations.

The 38,600 sf facility is a two story building with security features inherent to the plan of the building. Circulation paths of users, including staff, public and in-custody persons are distinct and separate, while providing a strong sense of the transparency of the judicial process for all. The building is sited purposefully to enhance the frontage of the municipal complex and the architectural character will establish a sense of importance of the proceedings within.
